

Appendix F - UCPC Neighbourhood Plan – Initial Survey extracts.

These tables have been extracted from the initial surveys, conducted by the Neighbourhood Plan Steering Group in spring 2017. They show only those responses related to Landscape, Community and Activity and will form an integral element of the final plan when it is submitted for scrutiny later in 2018.

For the purpose of analysis each question may have been responded to with a phrase or string of connected words. It is common to take the first word as the key preference (1st Preference).

Table taken from UCPC NDP Surveys in Spring 2017					
Count of 1st Preference	Age Group				
Row Labels	12 - 18'	19 - 39	40 - 59	60 +	Grand Total
Access				1	1
Access for elderly and Kids				1	1
Animals	1				1
Calm	1				1
Community		2		1	3
Community Spirit		1	2	3	6
Countryside		2	4	4	10
Crime rate				1	1
Dog Walking	2				2
Environment			1		1
Everything				4	4
Friendly		4	3	3	10
Friendly Community			1		1
Location			1	3	4
No travel		1		1	2
Nothing			1	1	2
Peace			4		4
Peaceful			2	19	21
People				1	1
Quality of Land				1	1
Quiet	6	1	5	5	17
Running	1				1
rural		1	5	15	21
Safe Community				1	1
School			2		2
Shop			2	1	3
Tranquil				1	1
Views	4	1	9	7	21
Walks	2	2	1		5
Grand Total	17	15	43	74	149

This second table groups similar words to obtain a set of preferences by age group.

Q1) What do you like about living in the Parish?					
	12 - 18'	19 - 39	40 - 59	60 +	Grand Total
Landscape based key words					
Calm, Peace, Peaceful, Quiet & Tranquil	7	1	11	25	44
Countryside, Environment, Quality of land, Rural & Views	4	4	19	27	54
Location & No travel	0	1	1	4	6
	11	6	31	56	104
Community based Keywords					
Access	0	0	0	2	2
Community based Keywords, People & Crime Rate	0	7	6	15	28
School & Shop	0	0	4	1	5
	0	7	10	18	35
Activity Based Keywords					
Animals	1	0	0	0	1
Dog Walking, Walks & Running	5	2	1	0	8
	6	2	1	0	9
TOTALS BY AGE GROUP	17	15	42	74	148

As can be seen from the scores in Table 2, respondents valued those phrases and words that represent their view of landscape quite highly.

It can also be seen that as people get older (and the profile of residents in the village closely reflects that of the 2011 UK Census) then they get more time to think and care about the landscape that surrounds them.
